CONFEDERATION

LIFE ASSOCIATION!

OF CANADA.

Head Office, Masonic Hall, Toronto.

CAPITAL.....\$500,000.

Stock and Mutual Plans Combined.

Deposited with Dominion Government for Security of

Policyholders, \$50,000.

PRESIDENT—Sir Francis Hincks, K. C. M. G.

Finance Minister of Canada.

VICE PRESIDENTS—Hon. Wm. P. Howland, C.

B., Lieutenant-Governor of Ontario;

Hon. Wm. McMaster, President Canadian

Bank of Commerce.

Issued—Over 500 Policies first half-year.

This Association issues all the most approved forms

of Policies—all non-forfeiting by charter. Its princi-

ple of non-forfeiture more favorable to assured than

that of any other company.

A strong company which combines strength of capital,

character and local influence and provides life in-

surance at the lowest safe rates without delusive

promises of dividends, making a good dividend certain

by decreasing the premium.

By its organization it enables each policyholder to

deal with his own neighbors, stockholders in the com-

pany—men whom he knows well to justice to his fam-

ily after he is dead, and also provides that its funds

will be invested to develop the resources of his own

country and locality.

A company with capital and breadth enough to be

safe beyond question, with national extent and pre-

stige, and yet a home company throughout the Dominion.

WILLIAM McCABE,

General Manager, Toronto.

The fullest information will be cheerfully fur-

nished on application to

JOHN ROBINSON, Government st., Victoria.

General Agent for British Columbia and Washington

Territory. au22

And Still More.

From beyond the Cascades comes complaint angry and loud on account of maladministration of the Land Office. Not content with crushing the grazing and farming interests with now and unequal taxation, the settlers find themselves completely, hopelessly sandwiched between "Orders in Council" which violate the spirit and sometimes the letter of the law. As has been stated in former articles, the power to sell lands by private contract was conferred in order that the Executive might summarily meet the just wants of the bona fide settler whose growing necessities demanded an extension of his domain. But with a degree of perversity altogether inexplicable, the power has been systematically wrested to the hurt of the very interests it was designed to serve. The surveyed lands they sell, or rather make an abortive but costly attempt to sell at public auction under circumstances calculated and seemingly designed to throw them into the hands of mere speculators. Nay, in their wisdom they decided that no surveyed lands shall be sold unless first put up at auction! Then they have recourse to their favorite pastime of making an "Order in Council" raising the price of all unsurveyed land, which comprises nearly all the land in the country, to two dollars and a half an acre. By these two artifices they have succeeded in completely defeating the primary object of the provision for selling land, and have practically placed the public lands beyond the reach of the very class whose acquisition of them the provision was intended to facilitate. And yet, again they pass another "Order in Council" causing every pre-emption made under the law of 1870 to revert to the Crown in cases where the pre-emptor obtained his Certificate of Improvement, sold the allotment and again exercised the pre-emption right. It is not too much to say that, if the Executive should have the temerity to enforce this last Order in Council, a very large number of holdings in both sections of the Province will be swept away and hundreds of thousands of dollars' worth of improvements lost. But they dare not carry out this crowning act of wholesale spoliation. What is a still better assurance, they will not have the opportunity! The organ boasts that its masters have five different modes of dealing with the public lands. We can quite believe it; but it is to be feared they have just five too many. Finally, bitter complaint is made respecting the policy (?) attempted to be carried out by the Government in surveying pre-emption claims beyond the Cascades—a policy alike contrary to reason and common sense. Altogether, we must congratulate the Ministry, and especially the Chief Commissioner, upon the "successful working" of their hydra-headed land system, and we compliment the organ upon its discrimination in selecting that as the chief ground for praising the Government.

Imports.

According to Parliamentary Returns the imports into British Columbia during the fiscal year ending 30th June, 1872, amounted to \$1,767,068; of which \$1,600,361 was dutiable and \$166,707 free. The total duty collected being \$342,400.48. Of these imports, \$556,781 came from Great Britain; \$970,795 from the United States; \$65,699 from the Sandwich Islands; and trifling amounts from other countries. The fact that nearly twice as much came from the United States as from the mother country must in a measure be attributed to the close proximity of the former and the remoteness of the latter; and it may be remarked that the trade springing up between this Province and the older ones on the other side will tend to alter the relations in subsequent returns. But the relative largeness of our imports from the United States is chiefly owing to a still less agreeable circumstance. We refer to the importation of such American productions as could and should be obtained from domestic sources. A glance at the various items making up the million (to use round numbers) we took from the United States during that year, painfully impresses one with domestic thrift. What would be thought of the farmer who bought most of the provisions necessary to the sustentation of his household from his neighbor? How much better off is the country or Province that does so? Let us see what British Columbia paid away for a few of the principal items of American produce during the year in question: Bacon and hams, value \$43,172; duty, \$7,362.58; total, \$50,534.58. Barley and oats, \$11,217; duty, \$1,616.03; total, \$12,833.03. Beans and peas, \$3,489; duty \$734.24; total, \$4,223.24. Bran and shorts, \$14,032; duty, \$1,655.42; total, \$15,687.42. Butter, \$13,053; duty, \$3,348.70; total, \$16,401.70. Candles, \$13,953; duty, \$3,633.41; total, \$17,586.41. Cheese, \$7,059; duty, \$1,759.66; total, \$8,809.66. Flour, \$124,027; duty, \$15,536.87; total, \$139,563.87. Lard, \$12,809; duty, \$2,057; total, \$14,866. Live stock, \$152,507; duty, \$11,107; total, \$163,614. Malt, \$3,620; duty, \$385.82; total, \$4,005.82. Fish, \$9,022; duty, \$993.11; total, \$10,015.11. Soap, \$10,641; duty, \$1,489; total, \$12,130. Hold! Enough for present purposes. Here is half a million taken away every year from our own producers to enrich a foreign neighbor with whom they are thrown into direct competition. Is it any wonder that the country is poor, that industry hangs its head, that the great agricultural and stock interests are depressed? Indeed, how could it possibly be otherwise? In proportion to the population the drain upon the wealth of the country is large and must lead to poverty, unless stopped. Half a million a year drawn off

that should circulate amongst our own producers! How shall this drain be stopped? To indicate some of the ways by which this most desirable object can be attained shall be the work of another article.

A CARD.
EDITOR BRITISH COLONIST.—I FEEL it incumbent upon me to give public expression to the feeling of grateful thankfulness which I entertain towards Mr. Charles Burnside, of Olympia, the Olympia Life Guards and the people of Olympia for the very great kindness shown by all to my late husband, during his illness, and for the fraternal manner in which they took charge of the remains after death. For the kind sympathy extended to me by all during my visit to Olympia, I desire, as a token of my grateful thanks, to return, Respectfully,
ANNE COX.

PORT OF VICTORIA, BRITISH COLUMBIA.

ARRIVED.

15th Oct.—Str Isobel, Morrison, Nanaimo
Greppier, Rudlin, Nanaimo

CLEARED

Oct. 15—None

THE NORTHERN PACIFIC.—All the New York papers have articles condemning the folly of Jay Cooke & Co., in attempting to carry the whole burden of the Northern Pacific. The unwisdom of constructing such a line in the manner attempted is also severely commented on. It appears that most of the bonds of the Northern Pacific which have been sold were purchased by small capitalists and people of slender means who can ill afford to lose the money invested.

ARTHUR OTTON had many peculiar belongings, judging from the testimony of the witnesses for the Tichborne Claimant: "He had a long neck; he had a short neck; he had a gash across his face; there was no mark on his face; he was pitted with small pox; he was not; he was very fat; he was raw-boned; he was both in-kneed and knock-kneed, and his legs were perfectly straight; he was nearly a cripple, turning both feet greatly to the left, and he was the eldest son of his father, and he was the youngest."

HUSHMONEY.—It is currently reported that Dr. Ash has compromised matters with Mr. Donaldson by the payment of a considerable sum of money in respect of the Deep Bay property he jumped. By this act the jumping Minister may have satisfied Mr. Donaldson, and possibly his own conscience, that is to say if he is troubled with such a thing; but if he imagines that he can put himself right with the public or prevent Parliamentary investigation by such means he will find out his mistake.

LAST CONCERT.—Miss Stevenson will perform for the last time at a concert to be given on Saturday evening at the Theatre Royal. Upon her excellencies as an accomplished cantatrice we have already disclaimed. It only remains for us to direct those who have not heard her, and to remind those who have heard her not to lose this opportunity of an agreeable entertainment.

DISGRACEFUL.—We have been given to understand that Nanaimo public school is still unprovided with desks and proper furniture, so that the pupils are unable to write, and some of them have actually to squat on the floor. It does really seem disgraceful that one of the largest and most important schools in the Province should be subjected to such treatment at the hands of the Government. This is State education with a vengeance!

NEW ARRANGEMENT.—The steamer Isobel will leave at 10 o'clock this morning for Port Townsend, where she will connect with the Eliza Anderson for this port, and bring passengers, freight and mail to this port this evening. This arrangement will probably be continued until the North Pacific is ready to resume her trips.

ON THE RAMPADE.—A young gentleman called "Jamake" got on the rampage at the Adelphi last evening, assaulted a boy and three or four men, pitched tumbler after tumbler, upset a stove, and would not be comforted until Officer McEwen took him in charge, handcuffed him and carried him off to gaol.

FROM HOPE TO SHEPHERD.—Mr. Moore reports the work done on the trail, as a credit to the contractor, Mr. Bristol formerly of Barnard's Express. The fallen timber is cut out, and seven miles graded by himself and an Indian, in order to keep the trail on the level.

THE FOOTBALL PLAYERS against the Fleet on Friday at 2 o'clock, on Beacon Hill, are: Messrs. Stahlshmidt, McKenzie, McKenzie, Jones, Ward, Tolmie, Tolmie, Woods, Pinder, Good, Berkeley, Within, Meeson, Guerra, Young and Rhodes.

NICOLA VALLEY WAGON ROAD.—The contractors have done good work on the lower road from the foot of the Lake to about 30 miles down. The river is crossed by five substantial bridges with iron trestle work.

MARINE HOSPITALS.—The Federal expenditure in connection with the maintenance of marine hospitals in New Brunswick and Nova Scotia during the fiscal year ending 30th June, 1872, was \$15,206.68.

SEA WEALTH.—The yield of the New Brunswick fisheries during last year was \$1,965,450, and of Nova Scotia \$6,016,835. Total, \$7,982,291. Number of men employed in these fisheries, 25,905.

POLICE.—The Police Report for the last two days is a blank sheet. This speaks well, not only of our citizens, but for the liberty men from the Fleet who have been on a cruise through town.

EXCURSION.—The excursion party by the steamer Maude to H. M. S. Rapulse will leave the Hudson Bay Company's wharf at 1 1/2 o'clock this afternoon. We hope to see a large attendance.

THE U. S. STEAMER TASCORRA came down from Nanaimo yesterday, and will sail for San Francisco at 10 o'clock this morning.

MR. A. J. SMITH, of Smith & Clark, has been appointed architect of the alterations now being made at the House of Assembly.

THE MAUDE, owing to the fog, did not make New Westminster till one o'clock yesterday. She sailed for this port at 3 o'clock this morning.

JAPANESE BAZAAR.—Mr. Bass continues to dispose of his handsome Japanese goods at very low rates. The sale will continue for a few days more.

SHIPPING.—Returns for the last six months, of the year 1873 show 498 ships came to this Province with crews numbering 5829 men, and that 396 departed.

TO THE HOSPITAL.—Thomas Barry, who was crushed beneath his dray on Tuesday, has been sent to the Hospital.

LIGHT.—Elsewhere will be found a statement of the street lamps which the Council have very properly decided to establish.

Municipal Council.

The Council met at 7 30 o'clock last evening, Coun. Gowan presiding.

COMMUNICATIONS.

From H. Rhodes, asking permission to use the road way to his house. Granted.

From Mr. Thomson, Sec'y Gas Co., notifying the Council that he would open Fort street, to lay gas pipes in the new Philharmonic Hall.

Coun. Drummond moved that the Gas Co. be forbidden to do so to test the power of the Municipal Council, the communication not being in the form of a request. Some discussion arose about the advisability of entering into legal proceedings, "fighting," as Coun. Morton said, "an idea."

Communication was received and filed.

From W. C. Ward, complaining of the state of sidewalk in Fort street near Quadra. A 10 foot sidewalk was ordered to be laid.

From A. Englehart, complaining of the dangerous state of Cook street. Referred to Street Com.

FINANCIAL.

The following accounts were read: For printing and publishing \$104 50; street work, \$52 50; hauling \$87 50; legal fees \$20 50; lumber, \$14 90; carpentering, \$10 50. Referred to Finance Committee for payment if found correct.

TELEGRAM.

A telegraphic message was read from A. DeCosmos, assuring the Council that the Quarantine Bills would be settled by the Federal Government on the return to Ottawa of the Minister of Agriculture.

STREET WORKS.

The Street Committee reported the following street corners for the erection of gas lamp posts: At the corners of Fort and Wharf, Yates and Wharf, Johnson and Wharf, Cormorant and Store, Discovery and Store, Figgard and Douglas, Humboldt and Government, Blanchard and Fort, Blanchard and Pandora, Government and Johnson, Gordon and Courtney, Douglas and Fort, Bastion and Langley, Pandora and Vancouver, Yates and Fort. Report adopted, and the Street Committee ordered to proceed forthwith with the lighting of the streets.

BLASTING.

The report of the Street Committee on the contracts for blasting of Rao street rocks was adopted.

VIEW STREET DRAIN.

The following tenders were received: Mr. Barjounany, \$1 50 per foot; W. Williams \$1 25 per ft; M. Currow, for the whole work, \$480 00; J. McDowell, \$1 62 1/2 per ft; P. Ripper \$1 50 per ft; W. Bond, \$1 50 per ft. Mr. Williams' tender as the lowest was accepted.

PANDORA STREET GRADING.

Tenders were received according to specifications of plans Nos. 1. and 2, from Messrs. Bond, Stelly, Kelly, and Tierney.

The tenders were laid on the table and the Council then went into Committee of the Whole on the above tenders.

TEMPERANCE LECTURE.—Mr. Levi Leland delivered a powerful and effective address at Alhambra Hall last evening on the subject of temperance. The audience was small; but all were well pleased with the lecture. Mr. Leland is an able speaker, and appears to have the cause greatly at heart.

LIGHTENING.—The amount of Customs Duties paid by British Columbia during the fiscal year ending 30th June, 1873, was forty thousand dollars less than the amount paid during the preceding year.

POSTMASTER.—B. Douglas, Esq., J. P. for Yale, has received the appointment of Postmaster for that town.

BLUE TUESDAY.—According to our dispatches, Tuesday was a blue day in Wall street,—the bluest for a whole decade.

RACES.—We direct attention to the advertisement for a meeting to inaugurate races for the Prince of Wales Birthday.

THE MAUDE.—Next week this steamer will leave Victoria for New Westminster at 8 o'clock in the morning.

THE ENTERPRISE will leave the repairers' hands about the 15th of next month.

RAILWAY SPEED.—The London Engineer states that the highest railway speeds in the world are attained in England, and that the highest of all is reached on the Great Western Railroad—the speed on the latter being given roundly as fifty miles an hour. Instances are given, however, of sixty-five and seventy miles an hour, and the Engineer believes that it would be possible to lay a permanent way so well, and to maintain it in such excellent order that trains might travel on it with perfect safety at one hundred miles an hour—indeed, miles upon miles of such tracks are now to be found on most of the great main lines, but nowhere can one hundred consecutive miles of permanent way in perfection be found; and, as a chain is no stronger than its weakest link, so a few hundred yards of bad track would spoil for the purpose of traveling at one hundred miles an hour a whole line. The really important question, argues the Engineer, is, given the line and the cars fit for it, what shall the engine be like, and is it possible to construct an engine at all which, with a moderately heavy train, will attain and maintain a velocity of one hundred miles an hour, on a line with no grade heavier than, say, one in three hundred. After a thorough examination of the question in all its bearings, the Engineer's figures prove that it is absolutely impossible to obtain a speed of one hundred miles an hour on a railway if the resistance is anything like one hundred and twenty pounds per ton.

OIL FROM HEN'S EGGS.—The healing properties in the new oil extracted from hen's eggs are said to be very great, and it can be easily made. First, the eggs are boiled hard; the yolks are removed, crushed and placed over a fire, where they are carefully stirred and when the substance is just on the eve of catching fire, the oil separates and may be poured off. One yolk will yield nearly two teaspoonfuls of oil. In the southern parts of Russia it is much used for curing cuts and bruises.

The Beaven Scandal.

HOW THE "SHABBY GENTLE" ORGAN EARNS ITS GOVERNMENT PAP.

EDITOR BRITISH COLONIST.—On the 2nd inst. I went to the Standard office and asked Mr. Long (who I then supposed to be head of the concern) if he would insert a letter in the paper containing charges against Mr. Beaven. I told him the nature of the charges and he replied that he would put it in. I saw him twice afterwards and he repeated his promise to put the letter in. On one occasion he asked me for it.

On Tuesday the 7th inst. I called at the Standard office and handed Long the copy of a letter which I told him was to appear in THE COLONIST of the next morning. He took it in his hand, looked at it, and said he could not put it in the next morning; but that if I would get THE COLONIST to hold it over for one day he would insert it on Thursday morning. I went to THE COLONIST office, saw the proprietor, and he consented to lay it over till Thursday.

On Wednesday, about 3 o'clock, I took the copy again to the Standard office. Mr. Long read it, accepted it and said, "It will appear to-morrow morning."

About an hour afterwards Long came up Trench Alley to the Council Chambers and, in the presence of two others, asked me if I was not afraid to put the last paragraph of the letter in? I asked "Why?" He said, "Don't you think it will do you harm at the Lands and Works Office in tendering for jobs in future?" I told him I did not care. They had already taken the bread out of my mouth, and swindled me, and that they couldn't do much worse to me. Long then said, "I'll put it in," and went away.

I went home and at 8 o'clock turned into bed and went to sleep. At nine o'clock I was aroused by a loud knocking at the door. I got up and there stood Mr. Chas. Smith, a brother of Mr. DeCosmos, M. P. He said he was very sorry to "wake me up, but he had come to tell me that Long wouldn't put the letter in the Standard. I asked him what he (a Federal official) had to do with anything going in or staying out of a paper. He said he only represented Mr. Long, who would not come out himself, but who objected to its going in. I told him that Mr. Long had promised to put it in. He repeated that he (Smith) had nothing to do with it—it was all Long's doings.

The next morning I called on Mr. Long for an explanation. He said that he was in favor of its going in, but that Mr. Smith (in Mr. DeCosmos' absence) had as much to do with the paper as he (Long) had and that he (Smith) objected to its going in, because it might injure the paper! He said if I would leave out the last part of the letter he would put it in the next day. I said, "Well, do it," and went away.

The next day the Standard appeared without the letter, and it has not appeared yet in its columns.

The statement which I have given above is susceptible of proof—witnesses having been present at every conversation I have narrated. I direct particular attention to the prevarication of Long and Smith—the shifting of the responsibility from shoulder to shoulder, and the downright, barefaced falsehoods one or the other must have told.

Having stated my case, I leave the miserable men and the paper they run to the tender mercies of the public.

I am yours, &c.,
GEORGE BAKER.

P. S.—I observe in the Standard this morning a paragraph (said to have emanated from the truthful Long to intimidate me from further proceeding with this case) in which it is hinted that certain parties (understood to be me) are to be proceeded against for libel. I can only say that I court the fullest investigation and shall be only too glad to go into the witness-box and prove under oath the truth of all the charges that I have made against the Chief Commissioner of Lands & Works, and Smith and Long of the Standard. I dare them to the issue!

G. B.

The Beaven Scandal—Extraordinary State of Affairs.

EDITOR COLONIST.—The attempt of the Standard to show that I was not present at the interview which took place at the Land Office between Messrs. Beaven, Baker and Farwell, having been disposed of effectually by Mr. Baker in this morning's COLONIST, no further remarks are necessary from me on that head.

But there is one point on which I should just like to say a word.

It has been and is common talk among the mechanics of this city that the Chief Commissioner of Lands and Works has always shown a disposition to throw public works into the hands of Hayward & Jenkinson. Some bosses have gone so far as to say that they will never tender again for a job while Beaven is in office.

While I am on it, I may as well mention three jobs that were given to that firm without a tender.

The first was a job to fix the doors and windows of Government House, last spring. The second was a job (only finished a few days ago, and said to have cost a large sum) to put lattice-work at the side of the ball-room at Government House. The third was the construction of a fence alongside of the guard house at Government House. How many more rich plums have fallen into the same hands I can't now say; nor am I able to say why these jobs were given to H. & J. without a tender. I am told, however, that the Chief Commissioner has on record at the Land Registry Office a mortgage against the property of a certain contractor, which mortgage is subject to a rate of interest more than double that at which money is going begging in this city. Any curious person willing to spend four bits can consult the record for himself.

Can that mortgage and that rate of interest have anything to do with the giving out of these jobs without a tender?

WM. CONSTANTINE.

VICTORIA, Oct. 15th, 1873.

CLOTHING.—R. Roberts, Merchant Tailor, Government street, next door to the London House, has received direct from the celebrated manufactory of B. Nivert, Elbeuf, France, a fine assortment of French Beaver and Doeskin, for Overcoats and Dress Suits, which he is making up in fashionable styles at very low rates.

"THE GEM."—A new and improved little instrument for marking Clothing, Cards, Books, &c., has been introduced here by Jim Boland, the agent for Oregon, Washington Territory, &c., and is for sale at Rose & Co's, Fort street.

By Electric Telegraph.

THE "COLONIST'S" SPECIAL DISPATCHES.

LAST NIGHT'S DISPATCHES.

Eastern States.

New York, Oct. 13.—There were two significant services yesterday at the conclusion of the meetings of the Evangelical Alliance at Dr. Hall's Presbyterian Church. Communion service was administered by the Episcopal Bishop Cummings of Kentucky, assisted by Dr. Arnold of Edinburgh, Scotland, and Dr. Dorrner, of Berlin, Germany. The Bishop remarked, that, in all his ministry he had never before communicated with his Presbyterian brothers, but this should not be the last time. Rev. Dr. Freeman of the Church of England, assisted the Pastor in the administration of the Communion at Dr. Brooks' Church. Both Churches were crowded.

St. Louis, Oct. 13.—Near Carrollton, Mo., last Friday night, Robert Austin, a wealthy young farmer, who suspected the fidelity of his wife, announced his departure for St. Louis, but returned to his bedroom closet armed with a double barreled gun. Shortly after his wife had retired, Elijah Haley, a young man came in and prepared to retire, when Austin sprang out and fired one barrel at him, but the charge struck his wife, inflicting a fatal wound. He then shot Haley dead with the other barrel. Mrs. Austin died on Saturday. Austin has surrendered to the authorities.

PHILADELPHIA, Oct. 14.—Returns show that the Republican ticket will have about the usual majority.

New York, Oct. 14.—Wall street experienced the bluest time to-day it has ever known so far as stock exchange is concerned. Prices have been allowed to fall below the lowest points touched in any of the panics of the past ten years.

It is said that Vanderbilt has been a free seller; that Gould has sold out stocks which he bought in and could not deliver, and has been buying up gold.

Orders were sent in to-day from almost every quarter directing the sale of stocks. Outsiders appear to be panic stricken.

Up-Country.

YALE, Oct. 15.—Weather—Bright, clear and sharp.

On Monday last Mr. W. C. Mayes, proprietor of the Branch Saloon, received a severe wound and narrowly escaped death from the accidental discharge of a double-barreled shotgun. Mr. Mayes was in the act of raising the gun from the floor when the hammers caught against the side of a safe and discharged both barrels carrying away the end of his middle finger, passing through the fleshy part of the butt of his thumb on the left hand, grazing the left temple and lodging both charges in the ceiling. The wounds, though painful, are not considered dangerous, and the sufferer commands the sympathy of all.

In the Police Court, on the 13th inst., before Justice Douglas, Wm. Ross Mackdonald was charged by officer Teague with being drunk and disorderly in the streets of Yale, and was fined \$5 and costs, reprimanded and bound over in the sum of \$50, to be of good behaviour for six months. This is considered the nastiest and cheapest yet.

On the 14th inst., Charley, an Indian, charged with stealing a marten skin from the H. B. Co. was committed for trial at the next assizes.

The much required jail fence is progressing favorably, and when completed will add immensely to the security of prisoners.

There were two burglaries here on the night of the 9th inst., and one on the night of the 10th inst. The value of the goods stolen is inconsiderable. No clue as yet to the perpetrators.

NEW WESTMINSTER, Oct. 15.—The Maude arrived here about 1 p. m. She got aground on the sand bar at the mouth of the river, and had to lay till high tide. She leaves for Victoria at 3 a. m. to-morrow.

Europe.

LONDON, Oct. 14.—£296,000 bullion was shipped to New York to-day. Sixty two thousand pounds was withdrawn from the Bank of England to-day, nearly all for America. Banks have raised the rate of discount to six per cent.

LONDON, Oct. 14.—Dispatches from Carthage yesterday say the insurgent vessels are beginning to leave the harbor, and another naval engagement is expected. The command of the insurgent fleet has been given to the captain of the Te Maadri.

MADRID, Oct. 14.—A dispatch from Hapalman, a few miles from Carthage, says heavy cannonading is heard there and it is expected a naval engagement is in progress.

It reported that provisions in Carthage will only last three days.

BERLIN, Sept. 13.—Ministers of Commerce and Interior have issued instructions to the District authorities to expel all emigration agents domiciling in Germany.

PARIS, Oct. 13.—Republican deputies have congratulated Thiers on the result of the elections yesterday. He expressed gratification at the results strengthening the opponents of the Monarchical scheme.

A Council of War, before which M. Rame was summoned, declared him guilty and passed sentence of death.

The Journal de Paris declares that recent elections demonstrate the necessity of the organization of the friends of Monarchy to prevent impending anarchy.

LONDON, Sept. 13.—A Times special says Gen. Saballo, has ordered people in the neighborhood of Carthage to quit their houses as a general bombardment by sea and land will soon be opened.

Henry James has been returned to Parliament from Taunton.

Edwin James, in his address to the electors of Marylebone, advocated Woman Suffrage and received a vote of thanks.

Oregon.

JACKSONVILLE, Oct. 13.—Major Jackson, of the First Cavalry, passed through here to-day on route East on leave of absence. He reports that the Modoc captives left Fort Klamath yesterday morning for their new home in Wyoming Territory.

Messrs. Brown and White, dry goods dealers, beg to inform their friends and customers that they have removed from the premises on Fort street lately occupied by them, to the store just vacated by Mr. J. Finlayson, Grocer, on Government street adjoining Masonic Hall.

The Health of Farmers.

The following true words from Science of Health should be inscribed in letters of gold over every farmer's residence:—"Farmers have unequalled natural advantages for health, strength and longevity. The statistics of disease and the tables of mortality, however, are against them. This is due not to their vocation, but to their misuse of it. No class, as a whole, is probably so utterly reckless of health conditions. So far as our acquaintance with the habits of farmers is concerned—and it has been extensive—it compels the conclusion, as a rule, that the dietetic habits of farmers are worse than those of any other classes who have the means of choosing for themselves. Fried dishes several times a day, with several fried articles at each of three meals, is one of their common abominations; dried beef, old cheese and pickles are among the common relishes, while lard and saleratus make their richer dainties indigestible and caustic. We have seen on a farmer's table, fried pork, fried eggs, fried potatoes and fried griddle cakes, for breakfast; fried ham, fried hominy and fried parsnips for dinner, and fried sausages and fried doughnuts for supper—all the frying done in lard. No class is so troubled with cancer, erysipelas, tumors, cancers and humors, as farmers; and the excessive use of pork, lard, fine flour, rich cakes and greasy pastry is enough to account for it. In dietetic habits, our farmers are sadly misled by the agricultural journals, nearly all of which panders to their prejudices, and flatter their morbid appetites by recommending and commending swine breeding and pork eating, while they fill their kitchen column with receipts for making 'rich and palatable' puddings, pies, cakes and other complicated dishes, which no stomach ever carried inside a human body could long tolerate without death or dyspepsia. The essential need of our farmers is plain, wholesome food, properly cooked. This would give them much more available strength for work, relieve them of many of the distresses and expenses of sickness, add many years to their lives, and render old age 'green' and normal, instead of dry and decrepit, as it is in most cases under existing habits."

The English export returns prove conclusively that their recent panic concerning the future of their iron trade is well-founded. Their entire export of iron during the month of August last was twenty-six per cent. less than the corresponding month of 1872, and in spite of a heavy rise in price the total value showed a falling off of two and a half millions of dollars. At the same time that this important article of trade is bringing less money, she has to meet an increasing demand for payment for breadstuffs. The prices of grain of all kinds are increasing at the rate of about a shilling per quarter every week, and stand now at higher figures than they have done for five years.

New Life for the Languid.

Perfect health is vouchsafed to few. Probably ninety people of every hundred who call themselves healthy have their 'turns' of languor, exhaustion, depression of spirits and bodily pain. At these times a wineglassful of Fowler's Serravallo's Bitters is as refreshing as the shadow of a rock in a weary land. It invigorates and renews the system and cheers the mind. The effect of the Bitters in cases of nervous debility, produced either by undue physical exertion, overstudy, intense anxiety, or any other cause, is wonderfully reviving and invigorating. In fact, this healthful vegetable restorative possesses medicinal properties which entitle it to the rank of an article of prime necessity, and it should be kept on hand in every dwelling, and promptly taken as a remedy for all the minor ailments as well as for more serious complaints.

OLD CHICORY is almost a thing of the past. Finlayson's Coffee presides over the present. It has now superseded what used to be claimed as "superior to any other manufactured on this coast," and will soon be found on every well-furnished table in the Province. Prepared at his premises on Government street, and sold by all the principal dealers.

A. GILMORE has just received a large assortment of Canadian and English Custom-made Clothing, which he will sell at Reduced Prices; therefore the public are invited to call and select for themselves and make their purchases before going elsewhere.

GROCERIES, WINES AND SPIRITS.—Attention is directed to the advertisement of Mr. John Boyd, who, on Thursday next, will open a store for the sale of these commodities on Johnson street adjoining Patrick's Corner.

FELT'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers throughout the Colony.

Propeller CALIFORNIA,
Captain J. Hayes.

WILL SAIL FROM PORTLAND FOR PUGET Sound, Victoria, Whangai and Sitka, on Saturday Eve'g, 11th inst.

On the premises of Mr. ROBERTSON, Douglas street.

Dentistry.
C. Francis Barnard, M. D.
SURGEON DENTIST.
DR. BARNARD HAS HAD FOR several months the "Perkins" or "Celluloid" Base, the newest and latest material adapted to the mounting of whole sets of teeth; he is also using "Whalebone-Rubber," which is rapidly supplanting for single dentures or partial sets the best vulcanite of the last 25 years.
We cheerfully add Dr. B's card to our columns, convinced that his good taste and judgment, united with his skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Coast or Island.
Dr. B's large experience may be readily seen in the happy and natural expression given his patients by the life-like insertion of artificial Teeth.
The public may rest assured of patience, gentleness and undivided attention while under the Dr.'s hands, and that he will ever strive to be foremost in adopting the best and latest improvements in his profession, and that of his patrons.
OFFICE AND RESIDENCE—Douglas Street, between Dr. Porrett's premises and Williams' Tea Store. Business hours from 8 a.m. till 5 p.m.
Victoria, Nov. 4, 1871. d65 daw

Medical.
FRENCH MEDICINES.
Prepared by
GRIMAULT & CO.,
Pharmaceutical Chemists,
8, Rue Vivienne, PARIS.

OF ALL THE MEDICINES OFFERED TO the public for many years past, none have met with such favorable reception, or as been so generally approved by the Medical Profession as those prepared by Messrs. Grimault & Co.
The Medical Laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Leconte, Professor in the Faculty of Medicine, as Pharmacologist of the Hospitals of Paris, and formerly Assistant to Dr. Claude Bernard, Professor of Physiology at the College of France, are guaranteed to be found in no other establishment.
Among other preparations we may specially mention—
Lecras' Liquid Phosphate of Iron.
It contains the constitutive elements of the bones and of the blood, and is the most rational of all chalybeates. It may be prescribed for the most delicate young females whose development has been retarded; for women suffering from stomachic complaints, anæmia, for pale and sickly children deprived of appetite; and as its principal action is to restore to impoverished blood in iron which is deficient, and to the bones the phosphate that forms their base, it is recommended for debilitated persons whether their debility proceeds from disease or from any other cause. Its use is always attended with surprising results.
GRIMAULT & CO.'s Syrup of Hypophosphite of Lime.
An excellent remedy for all affections of the chest, it relieves cough, effectually prevents nocturnal perspiration and restores the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault & Co.
GRIMAULT & CO.'s Iodized Syrup of Horse Radish.
Considered the best substitute for Cod-liver Oil. It has been ascertained by experiments made in the principal Hospitals of Paris that this syrup has always produced results superior to those obtained from the above-mentioned Oil, which patients find so disagreeable to take.
Not a single instance can be adduced in which pale lymphatic children, subject to swelling of the glands, to eruption of the skin, of the head or the face, or other inconveniences of a weak constitution, who have taken this syrup without deriving signal benefit from its use.
GRIMAULT & CO.'s Pepsine Digestive Powders, Pills, Elixir and Wine.
Pepsine is one of the most recent scientific discoveries in therapeutics. Acting chiefly on the organs of digestion, it possesses the property of effecting digestion by its innate virtues. It removes all the inconveniences of difficult digestion and even prevents the nausea to which pregnant women are liable.
The researches on pepsine made at the College of France by Dr. Leconte, in conjunction with Professor Claude Bernard, must secure the preference for our preparation of pepsine.
Lagasso's Syrup and Paste of Sea Pine Sap.
Employed with success in the treatment of catarrh, bronchitis, hoemoptysis, and the different stages of phthisis.
It cures spitting of blood, the most obstinate coughs, alteration of the voice, oppression and pain of the chest, the nocturnal paroxysms of asthmatics, and modifies the more serious lesions of the respiratory organs.
GRIMAULT & CO.'s Matico Injection and Capsules.
Composed of the essence extracted from the plantain called, they have been constantly employed with the most brilliant success in a certain class of contagious diseases.
They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, and the pepsine capsules which contain Balaan's Catarrh in a liquid state; or the structures that result from the use of injections having a metallic basis.
GRIMAULT & CO.'s Pectoral Lozenges of Lactucarium and Cherry Laurel.
This delicious comfit, containing the two most soothing substances of the whole Materia Medica is employed with success against coughs, influenza, bronchitis, hooping coughs, &c.
Asthma. Asthma. GRIMAULT & CO.'s Indian Cigarettes of Cannabis Indica.
All the means hitherto employed to relieve Asthma have been only palliatives in varied forms, based on belladonna, stramonium, nicotine, or opium. Recent experiments made in the Paris Hospitals have proved that our Cigarettes made of the extract of Indian Hemp possess remarkable and permanent effects. This complaint, as well as against nervous coughs, chronic laryngitis, hoarseness, loss of voice, facial neuralgia, and insomnia.
A single puff of this vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhoea, dysentery, and all disorders proceeding from derangement of the stomach or bowels. This powder is indispensable for all families, and far more efficacious than opium or sub-nitrate of bismuth.
GRIMAULT & CO.'s Vermifuge Santonine Dragees.
Under the form of a comfit, equally pleasing to the taste and to the eye, they supply mothers with an easy and perfectly safe means of relieving their young children from intestinal worms, which are often the cause of convulsions.
Tenderness of the skin and frequent irritation of the nose are nearly always the certain signs of the presence of worms. Preference ought always to be given in such cases to these dragees, the composition of which is well known and always the same, instead of those which are called vegetable, but often contain calomel or other forms of mercury.
GRIMAULT & CO.'s Newfoundland Cod Liver Oil, and Cod Liver Oil, with Iodide of Iron.
The Cod-Liver Oil which we offer to the profession and the public is especially extracted for our house in Newfoundland, and we can therefore guarantee its altogether exceptional purity.
Our Newfoundland Oil with Iodide of Iron, which contains nearly always on an average two grains of pure Iodide of Iron, is a valuable resource in lymphatic and scrofulous affections, as also in consumption.

GRIMAULT & CO.'s Syrup of Hypophosphite of Lime.
An excellent remedy for all affections of the chest, it relieves cough, effectually prevents nocturnal perspiration and restores the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault & Co.

GRIMAULT & CO.'s Iodized Syrup of Horse Radish.
Considered the best substitute for Cod-liver Oil. It has been ascertained by experiments made in the principal Hospitals of Paris that this syrup has always produced results superior to those obtained from the above-mentioned Oil, which patients find so disagreeable to take.
Not a single instance can be adduced in which pale lymphatic children, subject to swelling of the glands, to eruption of the skin, of the head or the face, or other inconveniences of a weak constitution, who have taken this syrup without deriving signal benefit from its use.

GRIMAULT & CO.'s Pepsine Digestive Powders, Pills, Elixir and Wine.
Pepsine is one of the most recent scientific discoveries in therapeutics. Acting chiefly on the organs of digestion, it possesses the property of effecting digestion by its innate virtues. It removes all the inconveniences of difficult digestion and even prevents the nausea to which pregnant women are liable.
The researches on pepsine made at the College of France by Dr. Leconte, in conjunction with Professor Claude Bernard, must secure the preference for our preparation of pepsine.

Yates Street, VICTORIA. j613dw

Municipal.
VICTORIA WATER WORKS
UNDER AUTHORITY OF THE CORPORATION of Victoria Water Works Act, 1873, and the Municipal By-Laws authorizing the construction of Water Works for the City of Victoria, 1873.
Debtentures.
Applications will be received at the office of the undersigned until the 21st day of July for the SECOND ISSUE of Water Works Debtentures, and should application be made for an amount in excess of the issue authorized by the Act, they will be distributed pro rata.
The Debtentures will be issued at par as follows, viz:
\$10,000,000 On 15th May, 1873;
15,000,000 On 1st August, 1873;
15,000,000 On 1st April, 1874;
The Corporation of the City of Victoria having the right to repurchase from time to time the said Debtentures, for the purpose of withdrawing the same from the market, the numbers of the Debtentures so to be repurchased shall be decided by a ballot, of which One Month's notice shall be given, by publication in the Government Gazette or in one or more of the local newspapers. The Debtentures will bear interest at the rate of Seven per cent. per annum, payable Half-yearly, and Coupons will be attached to each Debtenture for said interest, which shall be paid on presentation as they become due.
The Security offered for Repayment of Debtentures is as follows:
A preferential Lien will be given on all works to be erected, also upon the land and other property acquired for Water Works purposes, and on the Revenue (amounting to about fifty thousand dollars per annum) which the Corporation have the power to raise under the Municipality Act, 1873, and the Municipality Act Amendment Act, 1873, and on the Corporation's 1880, and the Road Amendment Ordinance, 1870. Ample security is thus given to those wishing to invest in Debtentures.
A deposit of Ten per cent. on the amount of Debtentures applied for will be required to be paid into the Bank of British North America to the credit of the Water Works account, and the deposit to accompany the application, and on the Debtentures being issued they will be placed in the said Bank and handed over to the party who presents the Water Commissioner's Certificate of his being entitled to receive the same, and on his paying the full equivalent as mentioned in said Certificate, and in the event of the Debtentures not being paid on the day of issue, the above-mentioned deposit of the Ten per cent. shall be forfeited to the use of the Water Commissioner for Water Works purposes.
Mr. F. W. Green, C. E., has been appointed by the Corporation as Engineer of the works to be constructed. The proposed Works consist in bringing water from Elk and Beaver Lakes into the City of Victoria, a distance of about five and six miles, and present no Engineering difficulties in carrying out the undertaking.
Forms of application for Debtentures, with Bank Deposit Receipt attached, as well as any further information that may be desired, can be had by application personally or by letter addressed to the Commissioner JAMES D. ROBINSON, Commissioner City Council Chambers, Broad St., Victoria, 26th April, 1873. j627

THE GREAT FAMILY WEEKLY
THE CHRISTIAN UNION,
AN UNSECTARIAN AND INDEPENDENT Journal, devoted to Religion, Morals, Reform, Science, Literature, Music, Science, Art, Agriculture, Trade, Finance, etc., etc. (24 pages quarto) and containing household stories, choice poems, tales for children, etc., embracing contributions from all known and eminent writers. Henry Ward Beecher, Editor, and containing Lectures, Sermons, Talks and Star Papers, as well as his powerful editorials and occasional reviews, and he is assisted by an able staff of skilful and experienced writers, while the contributions embrace well known and eminent writers from every Christianized Nation. The proposed Works consist in bringing water from Elk and Beaver Lakes into the City of Victoria, a distance of about five and six miles, and present no Engineering difficulties in carrying out the undertaking.
Forms of application for Debtentures, with Bank Deposit Receipt attached, as well as any further information that may be desired, can be had by application personally or by letter addressed to the Commissioner JAMES D. ROBINSON, Commissioner City Council Chambers, Broad St., Victoria, 26th April, 1873. j627

DIAMOND SPECTACLES
THESE SPECTACLES ARE MANUFACTURED from "Minute Crystal Pebbles" melted together and called Diamond on account of their hardness and brilliancy.
It is well known that spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye because of their polarizing light.
Having been tested with the polariscope, the diamond lenses have been found to admit 16 per cent. less light than the pebbles.
They are ground with great scientific accuracy, are free from chromatic aberrations, and produce a bright and distinct vision not before attained in spectacles.
Manufactured by the Spencer Optical Manufacturing Company.
For sale by responsible agents throughout the Union.
J. L. Jungerman,
JEWELLER AND OPTICIAN, IS SOLE AGENT FOR VICTORIA, V. I.
From whom they can only be obtained. No Pedlars employed.
The great demand for these spectacles has induced unscrupulous dealers to palm off an inferior and spurious article for the Diamond. Great care should be taken to see that the lenses are marked with the "J" (which is protected by American Letters Patent), in stamped on every pair. j66

RACES!
THE KEREMEOOS
(SIMILAKAMEEN)
Annual Fall Meeting
Will be held on
